Analytics Overview

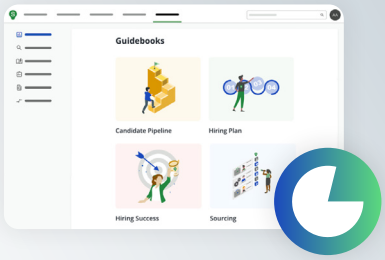

Our reporting products arm TA teams with the data and tools to drive their recruiting strategies forward.

SmartRecruiters Analytics Suite

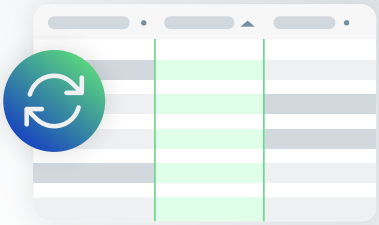

SmartAnalytics

- Pre-configured dashboards with advanced filtering capabilities
- Drill into data to visually tell a story
- Effortlessly share and export dashboards

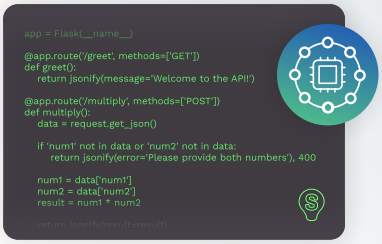

Report Builder

- Create personalized reports in just a few clicks
- Built-in templates to easily select and filter data
- Automate recurring reports

Reporting API

- Access custom reports through SmartRecuriters open APIs
- Retrieve all data fields available in Report Builder
- Expose metadata, data generation, and data transfer endpoints

Colliers

"SmartRecruiters gives us the ability to **understand the trends** in our recruitment business, diagnose how well things are working, and identify where the opportunities sit. It's also **really intuitive**, so you can't get it wrong"

- Ben Handyside, Colliers

Create the reporting hub you need with
